CLUB SPORTS DA MADEIRA

Brief History

Founded on the 3rd November, 1909, “Madeira Club” as it is popularly known, was the first sporting Institution to be created and is the oldest sport’s club on the island of Madeira. It is intrinsically linked to the local community and the entrepreneurial and innovative spirit of Madeirans, which was developed, as a response to the influence that the English colonial period was having on the island at the time, with the introduction and practice of various sports modalities, that were being “imported” to Madeira Island.

New sports’ modalities began to be practiced by this eclectic club, such as football, water polo, volleyball, handball, billiards, brigde and king,

In all these sports, “Madeira” was and is a great institution that has always contributed to the development of sport, spreading and promoting the name of the island of Madeira to various parts of the world.

From “ Volta à Ilha da Madeira” to the International “Madeira Wine Rally”- Rali Vinho da Madeira

Later, in 1959, “Clube Madeira” organised its “1 Volta à Ilha da Madeira ” by Automobile. This rally, made it famous, particularly on the mainland and on the Canary Islands, due to the fact that every year, many pilots and their companions travelled to the Island, joining together with the local Madeiran pilots, and were always challenged by Madeira’s difficult and winding roads that run from the sea to mountain in just a few minutes.

In the late seventies and with the acquisition of political autonomy, the Regional Government strongly invested in the development of this sport, as a touristic activity for promotion of the Region and also strongly supported other International sporting events.

Hence, the “Volta à Ilha ” started to bear its name from 1979, as one of the most famous products of the Island, renamed “Madeira

Wine Rally”, an International Competition FIA, which is now part of the National Championship of Rallies, and is considered as one of the best in the European Championships and National Championships.

Still today, it is recognised as the largest cultural and sporting yearly event on the island, which takes place on the winding roads of Madeira, having a huge impact on tourism and being notorious as a prestigious event at an international level.

In 1985, once again, Madeira was pioneer in motorsports, when Karting took off successfully on the island. Today,

Madeira also proudly leads with its classic car displays, as we have some of the best examples of old classic cars, extremely well kept and preserved. This activity is also keenly supported by the classic car owners, who willingly participate in sports’ competitions and exhibitions.

From “ Volta à Ilha – Rally Histórico” to “Madeira Rally Legend”

In 2019, Club Sports da Madeira, was asked to organise a sporting event for Classic cars, which was integrated into the programme for the celebrations of the “600 Years of the Discovery of Madeira and

Porto Santo ” and simultaneously, also served to celebrate, the 60 Years since the

first “ Volta à Ilha ” and “ 40 Years of the International FIA Event, Madeira Wine Rally ”, thus proudly holding the title as the oldest motoring event which takes place annually in the whole of Portugal.

This event was divided into Historic and Sport Regularity Cars and took place in July 2019. Despite having a very short time to prepare and publicise the event, it was hugely successful, with a lot of participation and support from the public and competitors.

Club Sports da Madeira, with the high sponsorship of the Regional Government of Madeira, would now like to go a little further in 2021 and organize a Motor Sporting Event, the “Rally Madeira Legend” a rally intended for historic and sporting cars which will begin, a new phase in the Madeiran motorsport industry, and contribute towards the continued promotion of Madeira as a leading tourist destination.

PROGRAM

Monday, 13th September
